Health
Research
Foundation

Hawke's Bay

Intro

The Health Research Foundation - Hawke's Bay has proudly funded health research in Hawke's Bay for more than 60 years. Formerly known as the Hawke's Bay Medical Research Foundation, the foundation is more determined than ever to make a positive impact on health in the bay. We need your help to achieve this goal.

Our mission

As science progresses, so does our knowledge and understanding of health - and of its diverse nature. At the Health Research Foundation - Hawke's Bay, we view health holistically: incorporating body and mind. This enables us to fund most pressing health questions in a wide variety of fields; medical research, sports science, mental health... we do this by connecting the most talented and passionate researchers to the essential funding they require to find answers. These answers improve people's lives, and often saves lives too.

Your involvement

The Health Research Foundation - Hawke's Bay runs a dedicated Philanthropy Programme. Individuals with a philanthropic passion can opt for this Programme, which offers more than their generous donations alone. We will explain this on the following pages.

The features of our Philanthropy Programme

Make a real difference

Your significant contributions will directly benefit the wellbeing of our local community

Come to our events

...and learn about the groundbreaking progress made by our researchers

Have a say

Vote for your favourite research applications, or determine a health cause for your donation

Meet likeminded people

Grow your network and deepen your philanthropic intentions

Leave a legacy of care

Your contributions will make an everlasting impact on health.

Become a patron

...and help grow the foundation further in the bay

Bequests

When determining how to structure your will, you will undoubtedly think of your closest relatives first. If, beyond your loved ones, you feel a desire to incorporate a charitable destination, we'd be thrilled to have you consider our foundation.

Philanthropy lives on

At the Health Research Foundation - Hawke's Bay, we profoundly believe in the power of science. We consider health knowledge to be the key to finding a better quality and quantity of life - for everyone in the bay, as well as beyond.

Our greatest successes to date have come from people's incredible generosity - and their ambition to make a difference. Their contributions have laid the foundations of research that changed people's lives: from saving babies from cot death, to making huge strides for disadvantaged minorities, to better understanding mental health issues.

The allocation of funds follows a rigorous process, lead by industry leaders in their respective fields. This ensures we always optimise the impact of every dollar donated. If you'd like to specify the cause of health research for your donation or bequest, feel free to contact us:

relations@hrf.co.nz

Sound wealth management

Our funds are expertly managed to ensure an optimal return on donations. Smart investments with a relatively low risk enable our foundation to achieve more with donations provided. Not only can we dedicate greater amounts to health research initiatives, but it also helps to build further momentum through the likes of events and auctions that we organise.

Health Research Foundation - Hawke's Bay has partnered with Forsyth Barr for its funds management and advice:

About Craig

Craig Lane joined Forsyth Barr in Napier in 1998. He has over 25 years of experience in the financial services industry, and has been involved in advising private and institutional clients in the banking, financial planning and financial sectors. Craig is the Manager of the Napier office.

Ready to discuss?

We would be thrilled to learn whether you have an interest in our Philanthropy Programme!

Reach out by emailing:
relations@hrf.co.nz

We look forward to hearing from you!

Warm regards,

The team at Health Research Foundation - Hawke's Bay
